West Jordan, Utah 84084

Dear Mr. Jackson:

Re: Reclamation Recommendations, White Mountain Mine, ACT/001/005,
Beaver County, Utah

Based on the July 16, 1986 site visit to the White Mountain Mine and the soil testing results submitted by Interstate Brick, the Division recommends the following reclamation procedures to be implemented this fall.

1. The area will be regraded to a rounded free-draining configuration.
2. Soil material which was windrowed at the side of the excavation will be pushed over the regraded area.
3. The respread soil and clay materials will be ripped or chisel plowed to reduce compaction and break up large clods.
4. The area will be broadcast seeded with the following mix:

	<u>SPECIES</u>	<u>LBS PURE LIVE SEED/ACRE</u>
<u>Grasses</u>	Thickspike Wheatgrass (<u>Agropyron dasystachyum</u>)	3
	Bluebunch wheatgrass (<u>A Spicatum</u>)	5
	Indian rice grass (<u>Oryzopsis hymenoides</u>)	4
	Bottlebrush squirreltail (<u>Sitanion hystrix</u>)	3
<u>Forbs</u>	Yellow sweetclover (<u>Melilotus officinalis</u>)	2
